Primary Course (JFY 2022)
Contents of Coursework in Japan

The Coursework in Japan for the Primary Course will provide practical knowledge and skills through lectures and workshops over a period of 5 weeks. The Coursework is based on participatory problem-solving learning and is designed to facilitate interactions between lecturers and participants and among participants. The aim of the Coursework is to master a high-level of knowledge of peacebuilding and development. Through workshops, the participants will learn to apply the acquired knowledge to practice and strive to develop practical skills in the field of peacebuilding and development.

The participants consist of around 12 Japanese Program Associates and 10 non-Japanese Program Associates. The working language of the Coursework is English.

The Primary Course implemented by the Hiroshima Peacebuilders Center (HPC) is designed to develop the skills of practitioners in the field of peacebuilding and development. The Primary Course has the following three principles.

First, the Primary Course aims to develop the practical skills of the participants. Designed to develop human resources in the field of peacebuilding and development, the Primary Course provides the participants with opportunities to learn practical skills required on the ground of peacebuilding and development.

Second, the Primary Course is designed to develop the “competencies” of the participants. “Competencies” refer to job performance skills on which international organizations place much value. “Competencies” specifically include practical skills such as leadership in a multinational environment. The Primary Course offers a valuable opportunity for the participants to develop their “competencies.”

Finally, the Primary Course is designed as an opportunity for networking among the participants in the field of peacebuilding and development. Human resource development in the long run requires networks of personal contacts. In terms of long-term human resource development, networking among participants, graduates, and facilitators will be invaluable.

The following table shows a tentative curriculum. The contents and facilitators are subjected to change according to the schedules of the facilitators.

Note: Program Associates (PAs) who wish to take part in the optional training (Personal Safety Management Training held on February 20-21) will complete the Coursework on February 21, 2023

Date & Venue (tentative)	Curriculum (tentative)	Facilitators (based on last year)
